

MOSOLUT HESTRA

The Mosolut Hestra floor is an ideal choice for outdoor spaces, such as balconies, loggias, terraces, pergolas and garden houses, but it can also be used effectively in a garage, workshop or sauna. Designed with an emphasis on resistance to weather and wear, it ensures a long service life even with heavy use. Thanks to the modular design, the installation of the tiles is simple and fast, and its attractive appearance, together with a wide range of color variants, allows easy harmonious coziness of all necessary spaces.

Mosolut Hestra

Classic, Universa, Floorcy

The Hestra KLASIK and Universa tiles are designed with an emphasis on simplicity and functionality in a single-color design. This perforated tile is perfectly suited for a wide range of uses, both indoors and outdoors. Its minimalist design easily fits into different styles and environments, while maintaining its aesthetic appeal. The perforation ensures efficient water drainage, which contributes to safety and comfort in use.

USE

- **Balconies and loggias:** Ideal for outdoor spaces where weather resistance and efficient water drainage are important.
- **Pergolas:** A useful floor for roofed areas, where functionality and design are combined.
- **Garden sheds:** Provides a practical solution for outdoor storage spaces and hobby rooms.
- **Garages:** Durable paving suitable for machines and vehicles, providing easy maintenance.
- **Workshops and technical areas:** A safe and easy-to-maintain floor, ideal for a working environment.

Mosolut Hestra Woodlook

Hestra flooring includes the Woodlook and Deck 45 collections, which combine the aesthetics of wood with the durability of plastic, making them an ideal choice for both indoor and outdoor use. Both types of tiles are characterized by a natural look, with Woodlook imitating the realistic wood decor and Deck 45 being inspired by the design of decking boards. These tiles are suitable for outdoor areas such as terraces, balconies, pergolas and gardens, as well as for interiors where they contribute to a cozy atmosphere. Thanks to the durable material, they provide a long service life, resistance to weather effects and easy maintenance.

USE

- **Terraces:** Both types of tiles provide a comfortable and attractive surface for outdoor sitting and relaxation.
- **Balconies and loggias:** Ideal for cozying up small outdoor spaces and creating a pleasant place to relax.
- **Pergolas:** Create a stylish and functional floor under covered areas where you can enjoy your time outside even in inclement weather.
- **Interiors:** Can be used in sauna and wet wellness zones.

Mosolut Hestra Multisport

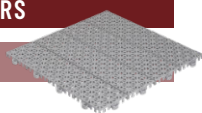

The Multisport tile creates a sports and game surface that invites you to daily activity. It was developed for versatile activities and sports such as floorball, soccer, handball, volleyball, basketball, tennis or group training.

Flexible tiles even out unevenness and make the surface safer. The innovative friction surface and drainage function eliminate the risk of slipping and landing in a puddle in light rain. The tiles are suitable for indoor and outdoor use. The floor can withstand frost and strong sun without changing, which means that the floor is suitable for sports in all weathers.

TECHNICAL PARAMETERS

MULTISPORT

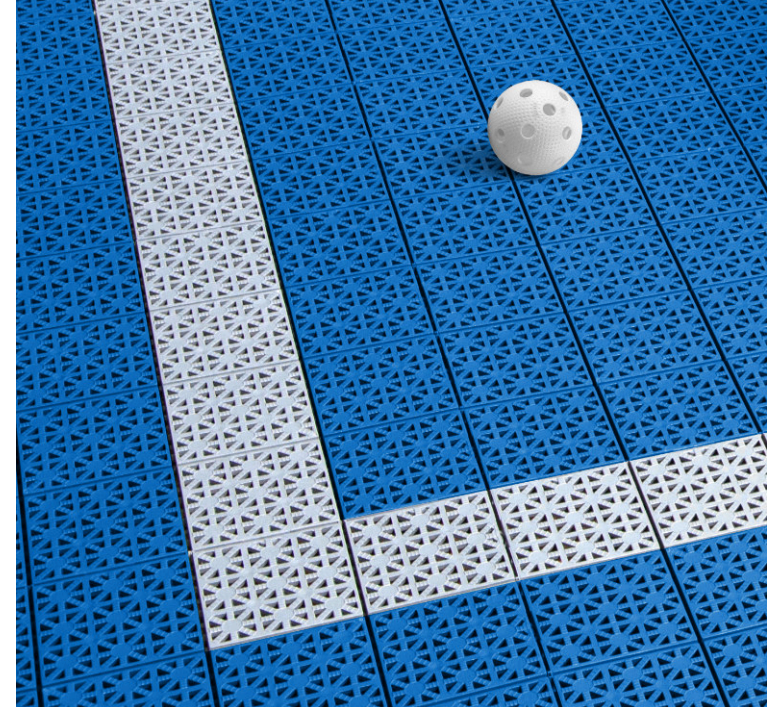

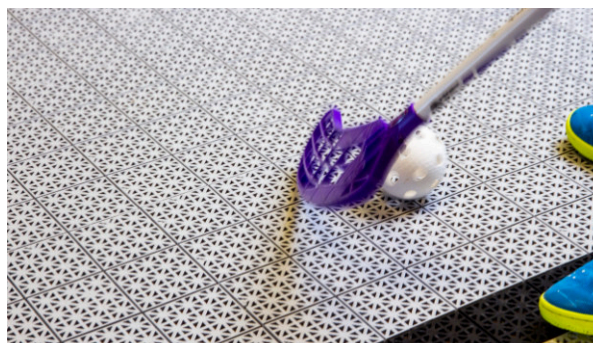

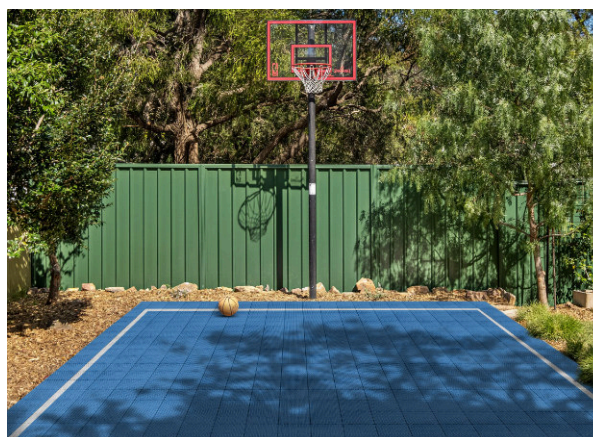

HEIGHT	12 mm
DIMENSION	300 x 300 mm
WEIGHT	2,25 kg / pc
MATERIAL	PP
1m ²	11 pcs
FLAMMABILITY	Efl

USE

- **Sports and game surfaces:** Outdoor table tennis or badminton – a flat and solid surface ensures a comfortable game.
- **Zones for rubber bands and shot:** Ideal for children, the surface is resistant to abrasion.
- Easy maintenance and surface flatness will improve the game.
- **Public places – Bicycle or scooter parking:** Keeps bikes in place and protects from mud.

The flooring is ideal for recreational and amateur sports, but is not suitable for professional matches where fast and dynamic changes of movement are required. For this purpose, we recommend Bergo Flooring tiles.
